Karen Grell has joined Powell & Associates at 5123 Middle Rd. in Bettendorf. She can be reached at 333-4481 and is available to handle all your financial planning needs.

CURVES SMART WORKOUT AHEAD OF THE CURVE

Eldridge area fitness club makes strides in the industry by introducing the technical version of a personal trainer

Imagine having the world's most advanced fitness coach at your disposal.

This coach customizes your workouts based on your body structure and **endurance and adjusts each exercise machine's intensity based on your** recent progression or regression. This coach monitors your energy level and range of motion continuously to ensure you are achieving your personal potential.. Then the coach automatically computes your workout data to produce a progress report, including the number of calories your burned and 3-D anatomical diagrams to show which muscles **you've worked and how successfully.**

This is exactly the role of the CurvesSmart personal coaching system, a new technology pioneered by Curves that offers a precision designed workout. Curves of Eldridge is among the first in the nation to feature the equipment upgrade. Each member is issued a CurvesSmart ID tag which is electronically recognized by a monitor at each work station. If the woman is exercising correctly, all indicators on the monitor will be **green. Members are encouraged to "Go for Green"**

"The CurvesSmart technology offers women the benefits of a highly skilled personal trainer without the expense" said Julie Hoffman, owner of Eldridge Curves, located at 906 E. Iowa St. **"It's the world's most advanced fitness training system, and we expect our members to be thrilled with how this amazing workout will help them achieve their goals even faster.**

Curve of Eldridge is taking new appointments to get started on the CurvesSmart workout on a first come, first served basis. Please call 285-2220 for more information.

OSHA's Safety Pays program provides planning tool for businesses

OSHA has developed a new interactive too, the Safety Pays (<http://www.osha.gov/dcsp/smallbusiness/safetypays/index.html>) program to help employers approximate the costs of occupational injuries and illnesses and the estimated impact on a company's profitability.

In addition, OSHA's electronic Compliance Assistance Tool (<http://www.osha.gov/SLTC/etools/safetyhealth/index.html>) provides employers with guidance for developing and implementing a comprehensive safety and health program.

SHIVE-HATTERYNEWS

POHLMANN JOINS SHIVE-HATTERY

LEED ACCREDITATION: SUPPORTING THE ENVIRONMENT AND GREEN EFFORTS

Shive-Hattery staff members have achieved accreditation by the United States Green Building Council as a LEED (Leadership in Energy and Environmental Design) Accredited Professionals:

- Charles Briegel, AIA, CCS, LEED AP, Commercial Retail Market Sector Leader and Senior Architect
- Mark Harpole, P.E., LEED AP, Civil Engineer
- Rebecca Mahon, AIA, LEED AP, Architect

LEED professionals develop sustainable solutions that reduce life-cycle costs and improve occupant well being and environmental performance using innovative practices and established technology

About United States Green Building Council

The U.S. Green Building Council is a nonprofit membership organization whose vision is a sustainable built environment within a generation. Its membership includes corporations, builders, universities, government agencies, and other **nonprofit organizations. Since USGBC's founding in 1993, the Council has grown to more than 15,000 member companies and organizations, a comprehensive family of LEED® green building rating systems, an expansive educational offering, the industry's popular Green-build International Conference and Expo** (www.greenbuildexpo.org), and a network of 77 local chapters, affiliates, and organizing groups. For more information, visit www.usgbc.org.
